

Sally is 14 years old and has been living at Care View for 3 months. She is a streetwise young woman who from day one has been a persistent absconder. She chooses to associate with older friends in the town centre where she drinks alcohol and uses drugs. She refuses to engage with staff and take guidance believing, as always, that she knows best. Sally is known to be sexually active and is promiscuous. She says she has had sex with 7 different partners in the past month. She has already been treated for Chlamydia but she doesn't seem to care about the impact on her health. We think she is prostituting herself to get money for drugs and new clothes and she is certainly materialistic. Sally is a negative influence on the other young people and often involves younger residents in her inappropriate activities.
