

Sally is 14 years old and has been living at Care View for 3 months. From day one we have been concerned about her going missing and she is thought to be a very vulnerable child. Sally is known to be spending time with older men in the town centre and is drinking alcohol and using drugs. This increases her vulnerability. Staff are working hard to engage Sally but at the moment she cannot accept our help and support. Sally is sexually active and we believe she is having sex with a number of older men. Sally has been treated for Chlamydia and we are concerned about her sexual health and well-being. Sally often has money and new clothes which she cannot explain and we feel that she is at risk of, or already being abused through child sexual exploitation. Sally often takes younger residents off with her and we are worried that she is being coerced into introducing other children to the abusers.
